Test Summary Report

STR

"Domino's Pizza" Website

The document provides information of tests conducted on the Domino's Pizza Israel website.

The tests included functional tests and user experience that divided into areas included menu display, placing an order, registration process, logging in as an existing user, logging in as a new user, all buttons have been checked, adding the products to the shopping bag, adding all types of toppings on top of the pizza in different parts, delivery process and location finder as well as, the payment process.

In addition, accessibility test and user convenience and other tests.

2. Application Overview:

Domino's Pizza provides website is an online platform that clients can use web and mobile devices to browse the menu through web and mobile devices to make orders for delivery or self-pickup.

The website can be accessed from any device such as laptop, desktop, smartphone, and tablet.

The site offers a diverse pizza menu with a variety of toppings and sizes of custom pizzas, sandwiches desserts, soft drinks and affordable deals. You can choose self-collection from one of the chain's branches or home delivery within 30 minutes.

The site is convenient and user-friendly, with an uncomplicated and understandable interface, that allows easy familiarity and navigation on the site.

You can choose pizzas in different sizes from different doughs and customize the toppings you like.

The site offers the option of translating into English, viewing branches, ordering large orders, celebrating birthdays, events and workshops.

There are links to App store, Google play, Facebook, Instagram, TikTok and also download the app.

You can pay in an easy and secure way and even save credit card details.

You can track orders after ordering and keep track with status.

Test Tree:

1. Login
2. My Account
 - 2.1. My Pizzas
 - 2.2. Personal Information
 - 2.3. Delivery address
 - 2.4. Credit cards
3. Log out.
4. Delete a user
5. Menu and Order
 - 5.1. Delivery
 - 5.2. Pickup
 - 5.3 Coupon
 - 5.4 Notes to the messenger
 - 5.5 Anything else?
6. Stores
7. Large Orders
8. Birthdays and Events
9. Young Chef
11. Jobs
12. Nutritional Values
 - 12.1. Order pizza
 - 12.2. Download the app.
 - 12.3. Nutritional values
 - 12.4. Nutritional information
 - 12.5. Facebook

12.6. Instagram

12.7. Order Pizza

12.8. Download the app.

13. Contact us

14. Terms and info

15. Privacy Policy

16. Accessibility

17. Language

17.1. Hebrew

17.2. English

18. Jobs

19. My cart

20. App store

21. Google play

22. WhatsApp

23. Follow us

23.1. Facebook

23.2. Instagram

23.3. Tik Tok

3. Metrics:

Test cases- Status

The table shows the number of test cases that were tested:

Passed	Failed	Not Run	Total
50	15	11	70

Severity Bugs – Status

The table shows the number of bugs divided according their severity:

S1 - Show Stopper	S2 - Critical	S3- Major	S4- Minor	S5- Low	Total
0	4	10	0	7	21

4. Recommendations:

1. Add an accessibility button on the main page.
2. It is recommended to allow viewing the menu without registration and without entering details.
3. It is recommended add additional languages such as Russian and French.

5. Conclusion

After performing tests on the Dominos Israel website, most of the site is convenient and accessible to the user.

But despite this, there are a number of bugs that require urgent attention.

I recommend not releasing the site until the bugs marked as critical are fixed.

Not Go

6. Bugs List:

DP- 21 Not possible to order pizza delivery to any address in Israel in English version-displays an empty error message.

DP-20 Not possible to order a pizza for self-pickup to the city of Rishon LeZion in English version- displays an error message.

Description

Step to Reproduce:

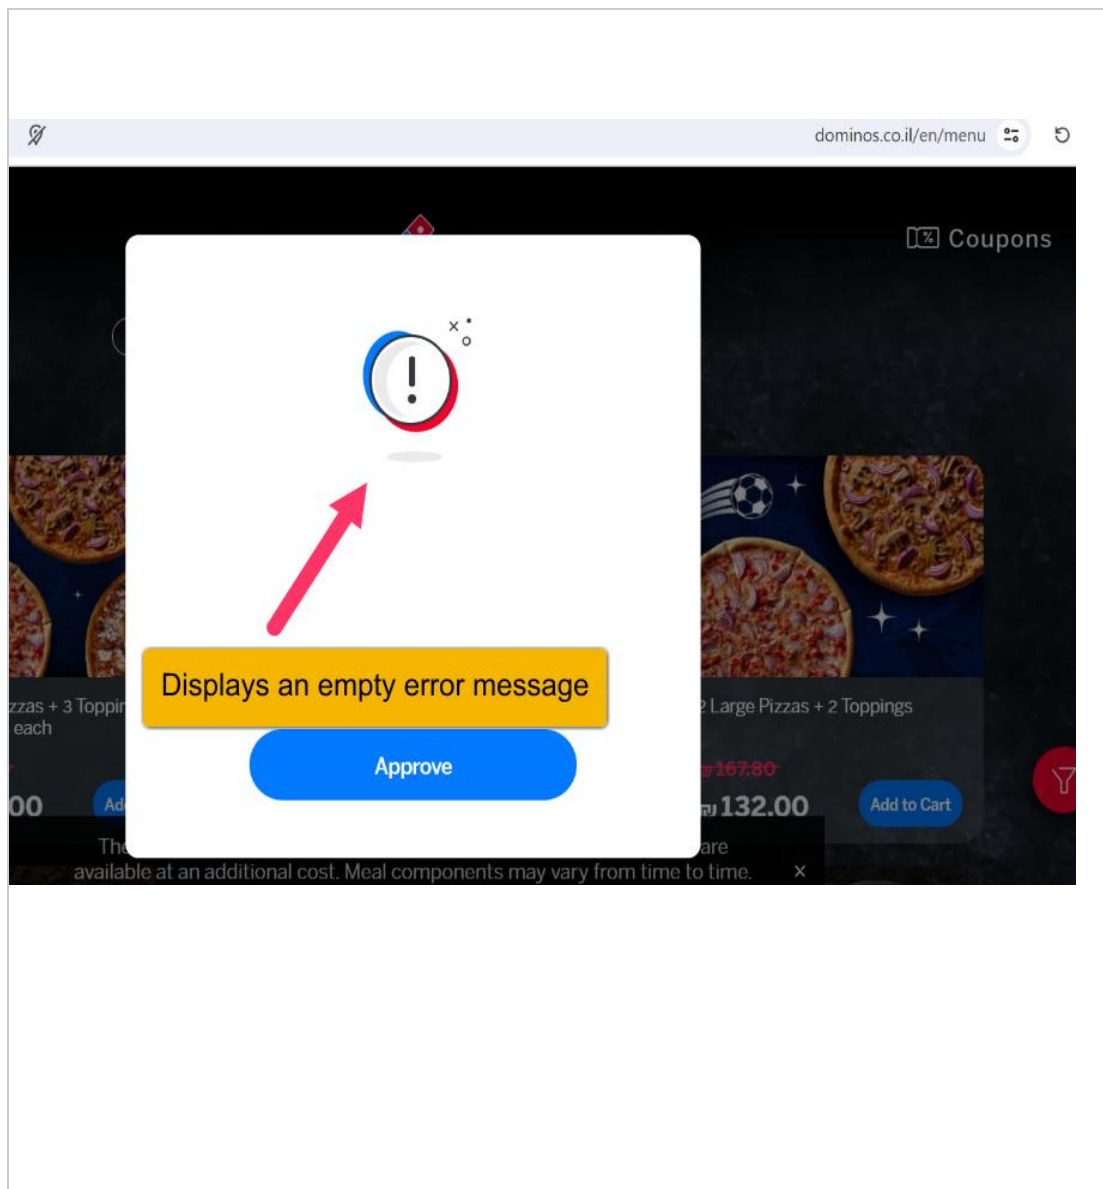

1. Open URL <https://www.dominos.co.il>.
2. Click on button 'משלוח' or 'איסוף עצמי'.
3. Tep on 'אני רק רוצה לראות מה יש פה'.

4. Click on 'סניפים כשרים' or 'כל הסניפים'.
5. Set address and press 'המשך'.
6. Pick one of the option from 'מה סוג הכתובת?'.
7. Registered the address.
8. Click on button 'מאוחר יותר' or 'תוך 30 דקות'.
9. Click on buttons, 'קנינוחים', 'ארוחות', 'פיצות', 'ליד הפיצה', 'משקאות'.

Actual Result:

The Buttons 'משקאות', 'הפיצה', 'משקאות', 'ארוחות' show the dominos logo until the images load.

Expected Result:

The website will load images faster without show logo of Domino's Pizza during images are downloaded.
